

# Blue Shield Value Drug Formulary

## High-Deductible Health Plans (HDHP) preventive drug list

This is a list of preventive medications that may be covered under your plan as allowed by federal regulations. If your plan covers these medications, your insurance benefit is applied before you meet your deductible.

HDHP preventive drugs are specific preventive drugs taken when risk factors are present for a disease that has not manifested (or is asymptomatic), or to prevent the occurrence of a disease from which an individual has recovered.

If you have any questions about this pharmacy benefit, please check your *Evidence of Coverage* or *Certificate of Insurance/Policy* for specific plan information or call the customer service number on your Blue Shield member ID card. To access the *Blue Shield Value Drug Formulary*, visit [blueshieldca.com/formulary](https://blueshieldca.com/formulary).
