

## Blue Shield of California Medication Drop Ship Program

California providers can order select medications via Blue Shield of California’s Medication Drop Ship Program. This is a voluntary program for commercial PPO network participants to use in filling medication orders for Blue Shield commercial PPO plan members, as an alternative to the traditional buy-and-bill model. Under this program, the physician’s office may order medications from a network specialty pharmacy on an individual patient basis. The pharmacy delivers the medications to the physician’s office and bills Blue Shield directly for the cost of the medication. After the member receives treatment, the physician bills Blue Shield for only the administration costs.

Medications can be ordered from any specialty pharmacy participating in our ancillary network. To access our list of ancillary providers, log into Provider Connection at [blueshieldca.com/provider](https://blueshieldca.com/provider) and navigate to *Guidelines & resources > Patient care resources > Ancillary provider rosters*. A few of our network pharmacies who have broad access to medications, including certain Limited Distribution Drugs, are listed below:

Pharmacy Name	Pharmacy Phone Number
CVS Caremark®	(800) 237-2767
Accredo®	(866) 759-1557
Kabafusion	(888) 204-9304
Kroger®	(866) 202-9552

Review the list below to identify which drugs are available through the program.

Y = Yes and N = No
